Your Strategic Global Sourcing Partner

Plastic Parts

Custom molded plastic parts- any size, any material

Materials & Finishes:

We provide a wide variety of specialized materials and finishes to meet all of your exact specifications- including Bath and Automotive industries' salt spray and UV testing standards. We offer an array of plated, painted and UV stabilizing surface finishes. Materials include:

- ABS, PVC, TPE, Acrylic, Polycarbonate, Polypropylene

Manufacturing Processes:

Our technical capabilities enable us to provide turnkey solutions scaled to your specific requirements. All manufacturing processes are performed in-house, and overseen by an expert staff that knows what it takes to get results; to control the cost and quality of the final product. With over 30 years of supply chain experience and long-standing vendor partnerships, Fullco will put our global supply network to work for you. Capabilities include:

- Extrusion
- Injection Molding
- Thermoforming
- Fabrication

Engineering:

Our engineering team will support you through every step of product development- from concept through final production and service after sale- becoming an extension of your business.

Distribution:

Fullco has shipping options from all of our global locations, including our Headquarters in Sycamore, IL as well as our branches in Nuneaton, UK and Kunshan, China.

We also offer tailored Vendor Managed Inventory (VMI) programs to fit your needs, including on-site consignment, Kanban or stock and release programs.
